

# GREEN NEWS!

Goldfield Green Environmental News

July 2017

We are very proud to have been awarded the **silver** Green Tree School award by The Woodland Trust.

Our tree work does not stop here though!

As a Tree Charter School we needed to create three Tree Champion characters. We introduce:

**Super Plant** by Isaac who likes to hide behind trees and when people cut them down he plants them back again which is why he is called 'Super Planter'.

**Tree Fe** by Poppy who likes trees because they help us to breathe.

**Tree Bunny** by Rosa who turns serious, brave and fearless when people are not taking care of trees because they provide food and shade.

We were upset when somebody unscrewed the base of the bird bath and removed it from the school grounds. It meant the bird bath could no longer stand upright and could therefore not be used. This was a real blow as access to regular water has been pivotal to the birds that have been visiting and nesting in this area. ☹️

Mr Whitehead

However, we can end term on a super positive note because Mr Whitehead put on his BLP super-hero cape and has creatively made repairs so A **HUGE** 'thank you', Mr Whitehead. A good bit of upcycling of an old tyre too!

Well done to all the children in Year Reception who put on a West End worthy production to teach us all about the importance of being environmentally aware and friendly. It was the perfect way to conclude our environmental learning for this year.

**“Waste less, Live more”**
