

4th October 2017

Dear Parents,

MATHLETICS

Children from Reception to Year 2 will have the opportunity to log-on and have fun using Mathletics both in school and at home. Each time your child has a go at the activities their results are recorded which we can access at school.

This year we are launching a competition to see which class is using Mathletics most in a week. The children are very keen, so please help you child log-on and get started. A log-on card will be sent home with your child's username and password. Simply visit www.mathletics.co.uk and sign in or download the Mathletics app on your phone or other devices.

Your child will not only be doing their best for themselves and their class but also for the School House Team. So harness their enthusiasm and love of maths by exploring the fun activities.

Happy Maths!

Many thanks,

Jane Blake (Maths Lead)
