

Dear Parents,

MATHLETICS

For the last two weeks in Year 1 we have been trialling an online Maths resource to help improve and encourage the children to build on their Maths and Numeracy skills. The resource is called Mathletics and is available from Year R to Year 6 and is for use in school and at home. So far we have trialled the resource with our current Year One children and they have thoroughly enjoyed using it and are very keen. We want to harness their enthusiasm for the resource and have purchased it in time for the holidays, so if possible please encourage your child to have a go on it at home. Staff would like to thank the FROGS for their endless fundraising, which has enabled us to buy Mathletics. Attached is your child's username and password. Have fun exploring the site and building up credits for your avatar. Simply visit www.mathletics.co.uk and sign in.
