

House Team Challenge

Dear Parents,

As one of our money raising activities for our selected Charity, (watch this space) the children will be taking part in a coin line challenge.

On Friday 17th March the children will work in their house teams to create as long a coin line as they can. We are therefore asking the children to bring in any loose change they can to add to their team's coin line.

The activity will help the children to develop their understanding of money and practical skills as they will be involved in measuring the length of the coin lines and counting the amount of money we have managed to raise.

Thank you again for all your support with our My Money March Activities.
