

## Sculpture Project

We are delighted to be working with the artist Catherine McCartney to create a vinyl sculpture at the centre of our new music garden. The music garden's designer Dan Earley was impressed by the sense of community here at Goldfield and wanted to reflect that by including the name of a piece of music that meant a lot to each of our families on each record.

Please could you write your child's name and choice of song/piece of music below so that it can be included in the sculpture.

We would also love to receive donations of records to use in the creation of the sculpture.

Child's Name : ..... Class : .....

Name of song/ piece of music that means a lot to me and my family:
